Digital Esthetic Laboratory was born from a necessity of a milling and printing center that can offer high-end life like CAD/CAM restorations at a fair price.

This is a place where state of the art technology allow us to achieve predictable results and deliver beautiful all-ceramic restorations.

We have been early adopters in areas such as CAD Design, 3D printing & milling technologies; we want to help you and your staff with our expertise. We want to provide natural looking restorations that will differentiate your practice from the competition while making you more efficient.

Call us today to learn about our services and specials!

Note: *We make every effort to be accurate; however, prices are subject to change without notice to customer. Rush fee is added to final restoration (\$50).

Please send any photos, STL models, or digital files to the following email: info@digitalestheticslab.com. All customers sending digital files (model-less) receive a 10% discount.

ZIRCONIA RESTORATIONS

Bruxir Solid Zirconia

High Strength milled zirconia restorations with minimal thickness up to 1.2mm and 1200Mpa strength. Extremely good biocompatibility, low wear, and great magical integrity. Ideal for posterior sites.

Unit \$99

Full Contour Lava Esthetic Zirconia

First zirconia with inherent, tooth-like fluorescence and optimized translucency for high-esthetic, full-contour crown and bridge cases. Built-in shade gradient utilizes patented shading technology to provide an excellent shade match to VITA Classic shades. Available in Bleach, A1, A2, A3, A3.5, B1, C1, D2.

Unit \$110

Full Contour Multilayer Katana Zirconia

High-strength, high-translucency zirconia. The most esthetic zirconia on the market ideal for anterior and posterior teeth. Ideal for up to three unit posterior bridges. A well-balanced combination of chromatic and gradational translucency reproduces esthetic enamel and dentine effects.

Unit \$120

Porcelain Fused to Zirconia (PFZ)*

Hand-layered facial porcelain added to a zirconia crown with enhanced esthetics internal colorization and staining allowing for a very natural look with the right opacity to hide substructures such as metal or dark tooth structure.

Unit \$139

Premium Esthetic Line Zirconia restoration

Posterior or Anterior

***Email digital picture with shade tab**

Unit \$180

Note: *We make every effort to be accurate; however, prices are subject to change without notice to customer. Rush fee is added to final restoration (\$50).

Please send any photos, STL models, or digital files to the following email: info@digitalestheticslab.com. All customers sending digital files (model-less) receive a 10% discount.

<p>E.max RESTORATIONS (LITHIUM DISILICATE)</p>	
---	---

E.max CAD

Ideal combination of high strength and esthetics for anterior and posterior areas. Predictable bonding and very natural look.

Unit \$110

Premium Esthetic Line E.max restoration
Posterior or Anterior
***Email digital picture with shade tab**

Unit \$190

GLASS CERAMICS AND HYBRID RESTORATIONS

Empress

Leucite reinforced ceramic with high esthetic result and natural translucency suitable for veneers. Empress must be bonded to achieve the best clinical success.

Crowns / Veneer

Unit \$ 130

Enamic

Hybrid ceramic network with an infiltrated reinforced polymer network that has the benefits of a ceramic and resin in one material with great modulus of elasticity.

Crowns / Veneer

Unit \$ 120

Note: *We make every effort to be accurate; however, prices are subject to change without notice to customer. Rush fee is added to final restoration (\$50).

Please send any photos, STL models, or digital files to the following email: info@digitalestheticslab.com. All customers sending digital files (model-less) receive a 10% discount.

FULL CAST RESTORATIONS

Full Cast
Base White Alloy

Unit \$ 115

Full Cast
2% Gold

Unit \$ 120

Full Cast 55% Gold

Unit \$140

IMPLANT CAD/CAM ABUTMENTS

Zirconia esthetic abutment

High-strength zirconia abutment on Ti-base for esthetic cases.

Unit \$225

Titanium

Unit \$285

Note: *We make every effort to be accurate; however, prices are subject to change without notice to customer. Rush fee is added to final restoration (\$50).

Please send any photos, STL models, or digital files to the following email: info@digitalestheticslab.com. All customers sending digital files (model-less) receive a 10% discount.

IMPLANT SCREW RETAINED CROWN & BRIDGE

Zirconia crown on generic ti-base

High-strength zirconia abutment on ti-base. Includes ti-base, soft tissue, implant labor, lab screw, and final screw.

Unit \$305

IMPLANT SUPPORTED FIXED PROSTHESIS (HYBRIDS)

Full Arch Hybrid zirconia

Full Arch Hybrid implant bridge with option of gingiva staining; 1,200 Mpa; capable of restoring cases up to 16 units. Includes printed prototype for esthetic try-in, layered facial porcelain.

Unit \$3200

Monolithic Zirconia Hybrid with layered porcelain

Includes printed prototype for esthetic try-in, Monolithic zirconia with cutback, pink and white layered facial porcelain by select Master ceramist.

Unit \$ 4800

Hybrid Trinia / All ceramic crowns

Includes printed prototype for esthetic try-in. Trinia substructure for natural resiliency, all ceramic restorations for all teeth.

Unit \$ 5600

*Call us for conversion services supervised by a prosthodontist.

Note: *We make every effort to be accurate; however, prices are subject to change without notice to customer. Rush fee is added to final restoration (\$50).

Please send any photos, STL models, or digital files to the following email: info@digitalestheticslab.com. All customers sending digital files (model-less) receive a 10% discount.

*Price Includes: Shipping to and from lab for all steps, soft tissue models, 4 implant analogs, cylinders, verification jig/prototype with 4 cylinders for try-in, implant labor, and final bridge with pink tissue and new cylinders. Prices shown are for the following implant platforms: Astra, Zimmer, BioHorizons, Biomet, MIS, Straumann, Nobel Biocare, Implant Direct.

*Multi-unit abutments or additional implant parts are not included.

ADDITIONAL CAD/CAM SERVICES

Digital wax up

Unit \$ 30

3D printed model

Unit \$ 70

PMMA milled and stained provisional

CAD designed and milled long lasting provisionals; high strength, adaptation, superior anatomy and texture.

Unit \$ 40

Surgical guide design. Please include Dicom file and model.

Unit \$120

Printed surgical guide: single implant guided surgery (guide tube included)

Unit \$ 125

Additional implant per guide

Unit \$20

Bone reduction guide (includes tubes, pins, and bur)

Unit \$300

*Call us for conversion services supervised by a prosthodontist.

Note: *We make every effort to be accurate; however, prices are subject to change without notice to customer. Rush fee is added to final restoration (\$50).

Please send any photos, STL models, or digital files to the following email: info@digitalestheticslab.com. All customers sending digital files (model-less) receive a 10% discount.

DIGITAL DENTURE

DELUXE High Strength Denture

High-strength, high-esthetics milled PMMA base and teeth, greater strength than conventional acrylic. Prosthetic is crafted with precision and completed with natural finish. Each denture is customized with composite pink esthetics.

Unit \$ 420

Note: *We make every effort to be accurate; however, prices are subject to change without notice to customer. Rush fee is added to final restoration (\$50).

Please send any photos, STL models, or digital files to the following email: info@digitalestheticslab.com. All customers sending digital files (model-less) receive a 10% discount.
